Everybody at Sea Regarding the Outcome of Today's Convention.

Ezeta's Lieutenant Is Made a Prisoner.

PROBABLY SHOT BY THIS TIME

Florence Bustamonte, Who Escaped with His Chieftain on the Bennington to San Francisco, Taken from an American Steamer at La Libertad.

WILLIAMSPORT, Pa., Sept. 11.—The Democratic state convention which met this morning to nominate candidates for state treasurer and six superior court judgeship promises to be very interesting.

The interest centers in the judicial places on the ticket, and owing to the fact that there are fully twenty candidates for the places, the politicians are all at sea. The fight seems to be the country against the cities of Philadelphia and Pittsburgh, with a fair prospect of the country winning.

B. F. Myers, of Harrisburg, will be the nominee for state treasurer.

THE ACTIVE SCRAMBLE for the judicial nominations is due to the fact that while the superior court consists of seven judges, the Republicans, at their recent convention nominated only six men, so that at least one Democrat is bound to be elected.

The leaders have been busy all morning, getting the platform into shape. The coming-out, as far as outlined, will, it is understood, give President Cleveland the usual hearty Democratic endorsement and declare unequivocally for sound money, and point to the returning prosperity of the country as a result of the Democratic tariff and administration. Governor Hastings' administration will be severely condemned, and reference will be made to the recent factional contest among the Republican leaders of this state.

Ex-State Chairman Stranahan, of Mercer, is temporary chairman, and John T. Garman, of Luzerne, may be the permanent presiding officer.

Treasurer Clay's Shortage.

IRONTON, Mich., Sept. 11.—The shortage of County Treasurer M. G. Clay is \$1,973. The county commissioners declared the office vacant and elected E. W. Schofield to succeed the removed treasurer. The examiners admit the incompleteness of their report, and anticipate the additional shortage of \$5,000 yet to be located.

A CITY UNDER WATER.

INDEPENDENCE, Kan., Sept. 11.—As reports come in the damage done by the severe rain storms Sunday night increase. Elk City is under water and the inhabitants have been driven from their homes, many of which have been washed away. No trains have gone west of here on the Santa Fe. The Verdigris river is out of its banks and is still rising.

FELL OFF A TRAIN WHILE ASLEEP.

READING, Pa., Sept. 11.—Joseph Sweeney, aged 60, of Philadelphian, was injured so badly near Shoemakersville that he died shortly after being brought to Reading. It is said that he went to sleep while stealing a ride and fell off the car. His right leg and arm were cut off and his chest crushed.

KILLED BY LIGHTNING.

HAZELTON, Pa., Sept. 11.—Thomas Walters, aged 60 years, was instantly killed by a bolt of lightning while sitting by his parlor window during the storm. His two boys were in the same room at the time, but were not injured. Mr. Walters leaves a widow and two children.

THE ALLEGED FILIBUSTERS.

WILMINGTON, Del., Sept. 11.—The grand jury in the United States district court yesterday afternoon adjourned until today without considering the cases of the twenty Cubans arrested and held on a charge of being filibusters engaged in an attempt to help the Cuban revolutionists.

THE WALL PAPER TRUST.

ALBANY, Sept. 10.—A hearing was given by Deputy Attorney General Hasbrouck yesterday afternoon in the matter of the dissolution of the National Wall Paper company, and decision was reserved for ten days. Edward M. Shepard, of Brooklyn, representing the firm of the H. N. Washburn company, of Philadelphia, members of the combination, asserted the National Wall Paper company had made no money since its incorporation. He said that \$90,000 worth of common stock was issued in violation of the law.

DEFENDER'S RIGGING CRIPPLED.

The Britisher Broke the American's Top-mast Backstay, but the Defender Hoisted a Protest and Sailed On—The Committee May Order the Race Resailed.

NEW YORK, Sept. 11.—Crippled, but still holding her over in her strength and swiftness, Defender followed Valkyrie across the finish line yesterday. Less than half a mile separated the two, and anxious eyes kept pace, second by second, with the time of Valkyrie, should they succeed in winning the America's cup.

Later it was given out at the New York Yacht club that the cup committee would

not render a decision in regard to the protest until some time today.

WE'LL WIN, SAYS FLOWER.

THE EX-GOVERNOR SAYS YOU CAN'T FOOL ALL THE PEOPLE ALWAYS.

REPUBLICANS MAY TRY TO

But the Return of Prosperity is the Death-Knell of McKinleyism and the 3.24 Tax Rate is the Coffin of Plattsburgh.

Ex-Governor Roswell P. Flower was elected as chairman of the Jefferson county first assembly district Democratic convention, and also elected to head the delegation to the Syracuse convention. In calling the convention to order he announced that hereafter he shall make Watertown his home, and spoke of the political outlook in part as follows:

"I congratulate you on the bright prospects of Democratic victory in the coming election. You cannot fool all the people all the while. Last year and the year before we were trying to put the currency question on a sound and solid basis, so that there should be no fluctuation in the measure of values, so that none of the people should be cheated. The Republican party had left that question unsettled, and in 1893, all the summer and fall months were spent in repealing the Sherman silver bill. Again, when congress assembled in December, we were pledged to reform the tariff.

HOW THEY FOOL'D THE PEOPLE.

"Our redemption of this promise occupied congress until late in 1894. So that during the past two sessions of congress, business was unsettled, and until the people ceased to follow the Republican idea that they were ruined by the changes, until they began to look about and see the condition of the country, that manufactures could thrive under a Democratic tariff, that the whole country was better off than when we came in power, that prosperity could come with honest money, that labor could be employed with full wages notwithstanding the fact that some timid partisan manufacturers had said the change in the tariff would ruin them and that they would be flooded with cheap labor from abroad, so that poverty would stare each individual laboring man in the face, if we succeeded, Democratic prospects were indeed gloomy.

BUT NOW THEY KNOW BETTER.

"When these laboring men see these manufacturers under the new tariff restoring the wages they have reduced, when they see their markets broadened so that our carpet and woolen goods are being sold in English markets, when they see steel and iron exported under a reduced tariff, they begin to inquire if the Democratic party has not been right all the while on this question of tariff and that these Republican manufacturers all wrong.

"Now, many timid people in 1893 and again in 1894 were fooled, business was paralyzed, men out of work; in fact, there was little purchasing power left in the country. Any panacea offered to a sick man is readily taken. The people were sick in 1893 and 1894. They could not make money. The Republican politicians had scared the people with the idea that they were ruined. In such an emergency they took the Republican party in large doses in all the States of the Union. The elections went Republican. The people were fooled each year.

A COMMONSENSE TARIFF.

"Now the result of the good work of a Democratic congress in the repeal of the silver purchasing bill is self-evident in the fact that we have prosperity under good money. Now that the reduced tariff bill is in active operation and has been for nearly a year, the people see that labor and capital are thriving all along the line of our industries. Now that they see this, you cannot fool them with another dose of Republicanism or get them to vote to make the currency worth less than it is now, or get them again to disturb the tariff or agitate any change. They want prosperity.

"They know what gave it to them. They know that the tariff is on a solid, firm basis, and that if the currency question is not as solid as it might be it will be made so by the Democratic party, and there will be no fluctuations in the length of the yard stick that measures our commodities.

NO MORE 3.24 TAXES.

"They will take no more Republican panaceas. The one they took in 1893 and 1894 will cost them a pretty round sum in the city of New York. It will raise their taxes the first year nearly two million of dollars, and in the State about \$4,500,000. They will have to pay these Republican doctors this sum in extra taxes, but when they are paying it they will make up their minds never to employ them again. They will see that they took the wrong dose. Reform in the hands of Republicans is a cathartic which they apply to Democrats but never take themselves.

"The people desire honesty and economy in State and municipal affairs. They will turn again to the party which has given them the lowest tax rate they ever had in the State of New York.

The Blind Brothers Were Born With the Knack of Boat Building.

The fame of the Herreshoffs as boat builders extends to all parts of the world. The family is a remarkable one. There are seven brothers, three of whom—John, Lewis and Julian—are blind. While all are interesting characters the greatest public interest is centered in John and Nathanial as the builders of the American yacht Defender.

They are of German descent, the first of the family being Charles Frederick Herreshoff, who came to this country in 1790 from Germany. His son, also named Charles Frederick, was the father of the present generation. When a boy, he occupied his leisure time cur-

ing out miniature ships, and when 12 years old built a boat for himself and sailed around the Narragansett bay. Within two years he built several boats and sold them, and thus began the Herreshoff fame as boat builders.

The oldest of the present generation is James Brown Herreshoff, a graduate of Brown university, who now lives in California. He is an authority in mechanical engineering, and it was he who first proposed the coil boiler which gave the Bristol works a start in the construction of steam launches.

Charles Brown Herreshoff, the second son, takes charge of the Herreshoff homestead on Prudence island, and is a man of some political prominence in Rhode Island.

John Brown Herreshoff, who is the oldest of the three blind brothers, is the business head of the works at Bristol, and with his brother Nat shares the distinction of having produced many of the fastest boats afloat. He began whittling out boats as soon as he could use a jackknife, and when 14 built a good sized yacht for sailing on Narragansett bay. About this time he was stricken with blindness, but he kept on building boats, with what success the world knows.

Lewis Herreshoff, who is also blind, is a musician of some note.

Nathaniel Greene Herreshoff, or "Captain Nat," who is most widely known as the designer of the Defender, is the mechanical genius of the family. He was graduated from the institute of technology, where he took prizes in physics and mathematics. He was for a number of years employed at the Corliss Engine works in Providence, and at the same time did the designing for the Herreshoff company and modeled most of their sailing and steam yachts. Since 1877 he has given his entire attention to marine engineering and has designed and built a number of boats whose speed and weatherly qualities have produced a revolution in yacht building.

"Captain Nat" is superintendent and manager of the Herreshoff's works and owns one-fourth of the stock.

There are two younger brothers, Francis and Julian. The former, a graduate of Harvard, has distinguished himself in chemistry, and the latter, who is blind, was educated at the University of Berlin, and has become noted as a mathematician and linguist, being the proprietor of a school of languages and music at Providence.

KNOWLEDGE

Brings comfort and improvement and adds to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid nutritive principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver, and Bowels without weakening them and it is perfectly free from very objectionable substance.

Syrup of Figs is for sale by all druggists in 50 cent bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

UP THE MIDLAND.

No Profit in Acid Factories—Dull Season for the Stone Trade—An Acid Manufacturer's Big Farm—The Pure Milk Crusade—The O. and W.'s Fine Train Service—The Muddled Milk Trade.

Correspondence ARGO & MERCURY.

—While the acid factories have kept open the past year, yet they have not been operated at any great profit to their owners. Four cents a bushel is all they can get for charcoal loaded on the cars at the present time.

—As usual about this time of year the stone business is slack owing to the fact that builders do not begin any extensive jobs as winter approaches.

—Arthur Leighton, the well known Trout Brook manufacturer, has cleared from the forest the present season more than one hundred acres of land. He puts his land in crops as soon as the wood is cut off, and if he keeps on at the rate he has for the past three years will soon be one of the most extensive farmers in the State. As he uses in his factory eighteen cords of wood every day in the year, it is easy to conceive how fast his farm is gaining.

—The present crusade by the city Board of Health against the milk dealers will amount to nothing so long as the test is confined to the lactometer. The milk dealers and creamerymen have a way of their own to fix the milk that it will show up all right by the lactometer test. The retailers claim that the milk is diluted before they get it.

Why in the name of common sense do not the authorities send out inspectors to inspect it as it comes from the farm, and either convict or relieve the producers from all the blame they are now compelled to bear.

—The train service on the O. and W. was never better than under the time table of June 23. The trains are invariably on time, showing that the motive power is of the best. The vestibule coaches will all be taken off as soon as the heavy summer travel is over, and other coaches put in their place. All railroads have been sorely pinched for the past two years, but the O. and W. has held its own through all the financial depression.

—A great deal was said against the old Milk Exchange. Money was poured out like water by a few meddlesome farmers to effect its dissolution, and ever since its dissolution there has been nothing but confusion worse confounded in the New York market and the milk trade everywhere. Prices for milk have ruled lower this year, than ever before, with no present signs of an advance. The retailers would be willing to take milk the year round for a cent a quart if they could only get it. The men who were so active in downing the Exchange are now beginning to realize where they are at.

RESTRICTS.

"EIGHT BELLS."

The Famous Byrne Brothers in Their Great Fun Maker.

The novelty of a steamship turning completely over in mid-ocean and the passengers still remaining right side up is certainly a very laughable conceit.

The Byrne Brothers, who appear at the Casino, Saturday night, in "Eight Bells," are doubtless aware of this feature as a fun maker when they embodied it in their curious spectacular production of that name.

The Byrnes have also retained all the best features of the old skit which were funny. They include the ship scene, the boarding-school action, and the comical horse and the stage coach horse play.

As everybody knows, the brothers are great acrobats and as supple as eels. There is a good variety of song and dances in the new version, with pretty music and prettier girls. There is the ghost of a love story running through the maze of tumbling sequences also, which is very laughable. John F. Byrne is a good crayon artist, Helene a bewitching dancer and singer, and the company generally agile and talented.

CHIEF OF UNCLE SAM'S SCOUTS.

Buffalo Bill and His Famous "Wild West" Show.

Col. W. F. Cody, or Buffalo Bill, as he is more familiarly known, is so well known at home and abroad that little remains to be said about him, except that he still stands at the head of one of the greatest amusement concerns in this or any other country.

Associated with Col. Cody for a number of years has been Mr. Nate Selsbury, a man of expanded ideas and keen perceptions of business qualities. To these two, for this season, has been added Mr. James A. Bailey, now and for a number of years the head of the great Barnum Show.

In addition to representations of Indian warfare, attacks on and rescue of stage coaches and settlers' cabins, riding by trained Cowboys, Mexican Vaqueros, a Congress of Rough Riders of the World has been added, including Russian Cossacks, South American Gauchos, Bedouin Arabs, and the pick of the Cavalry of the English, German and the United States armies.

A free cavalcade in the morning will be participated in by detachments from various departments of the exhibition. The music will be furnished by the famous Cowboy Band and two other bands of almost equal excellence. The "Wild West" will be here Friday, Sept. 20th.

His Arm Crushed.

James Foster, of Newburgh, had his arm caught in the press in a paper mill in that city, yesterday, and but for the breaking of a piece of the machinery the member would have been pulled from the socket. It was badly crushed as it was, but the physician hopes to save it.

Two Lives Saved.

Mrs. Phoebe Thomas, of Junction City, Ill., was told by her doctors she had Consumption and that there was no hope for her, but two bottles of Dr. King's New Discovery completely cured her and she says it saved her life. Mr. Thos. Eggers, 139 Florida St., San Francisco, suffered from a dreadful cold, approaching Consumption, tried without result everything else then bought one bottle of Dr. King's New Discovery and in two weeks was cured. He is naturally thankful. It is such results, of which these are samples, that prove the wonderful efficacy of this medicine in Coughs and Colds. Free trial bottles at McMonagle and Rogers' Drug Store.

DURHAM, N.C., Sept. 11.—Matt Fader, of Watauga, Minn., the sixth victim of the dynamite explosion at Specht's Ferry on Sunday, died yesterday.

Coroner's Verdict Against a Railroad.

BROOKLYN, Sept. 11.—The coroner's jury which investigated the Long Island railroad accident find that a boy in a railroad company of employees negligence in failing to provide proper signals or telephone or telegraph communications between stations, by which such an accident might have been averted. The employees of the railroad are exonerated.

There is nothing to prevent anyone concocting a mixture and calling it "sarsaparilla," and there is nothing to prevent anyone spending good money testing the stuff; but prudent people, who wish to be sure of their remedy, take only Ayer's Sarsaparilla, and also get cured.

Mrs. Pielot Identifies Her Son's Garment.

INDIANAPOLIS, Sept. 11.—Mrs. Pielot and her daughter, Dessa, the only child that escaped the murderous clutches of H. Holmes, went before Coroner Carter yesterday. Mrs. Pielot, while looking upon the trinkets found in the chimney of the Irvington house, where little Howard Pielot's charred remains were found, went into hysterics, and she sobbed almost continuously during her testimony. Mrs. Pielot positively identified the tie, pin, shoes and buttons as those of little Howard, and when the murdered child's overcoat was produced her hysterical grief was pitiful to look upon. She identified the coat positively. The trunk was also identified. Dessa, the daughter, likewise identified every article.

DEMOCRATIC CONVENTION.

The Democratic electors of the State of New York are requested to unite in sending three delegates and three alternates from each Assembly district to a State Convention, to be held at Syracuse, on Tuesday, Sept. 12th, at 12 o'clock noon, for choosing nomination candidates to be voted for at the general election, and to transact such other business as may properly come before the convention.

J. W. HINCKLEY, Chairman.
Attest: JOHN B. JONES, Secretary.

SECOND ASSEMBLY DISTRICT CONVENTION.

The Democratic electors of the several towns and wards, comprising the Second Assembly District of the county of Orange, are hereby requested to meet at the place of holding their annual town or ward meetings (unless otherwise ordered by the several town or ward committees, or unless delegates have in any town or ward already been selected), on Tuesday, Sept. 17th, 1895, at 3 o'clock p.m., for the purpose of electing the number of delegates each town or ward entitled to attend a convention to be held at the Assembly Rooms, in Middletown, on THURSDAY, SEPT. 19th, 1895, at 12 o'clock m., for the purpose of choosing three delegates to represent the Second Assembly District at the State Convention, to be held at Syracuse, on the day, Sept. 24th, 1895.

WM. H. CRANE,
WM. POHLMAN,
Assembly District Committee.

DEMOCRATIC CITY PRIMARIES.

The Democratic electors of the several wards of the city of Middletown will meet at the following places on Friday evening, Sept. 13th, at 7:30 o'clock, to choose delegates to the Assembly, State, Senatorial, County and Assembly District Conventions.

Firs Ward—Montgomery House Hotel.
Second Ward—The Phoenix Exchange Hotel.
Third Ward—Commercial Hotel.
Fourth Ward—Holding House.

The First, Second and Fourth Wards will choose four delegates each to the Assembly (State, County and Assembly District Convention), and the Third Ward two delegates.

A. E. LUDINGTON, Chairman.

TIMOTHY MONGAN, Secretary.

TOWN OF WALLKILL.

The Democratic electors of the town of Wallkill are requested to meet in Bull's Hall, Circleville, on Saturday, Sept. 14th, 1895, at 2:30 p.m., and select the number of delegates which said town is entitled, in the Assembly, County and in the State, to be chosen to be held after called this year. By order Town Committee.

R. A. HARRAT,
WM. WILKIN,
FRANK MILLS.

John Raines, the Senator who was a thorn in the side of the reformers, and of whom the Republican *Mail and Express* said that his renomination would be a disgrace to the Republican party, was unanimously renominated, yesterday, by the Republican convention in the Wayne-Ontario district.

Surrogate Roswell C. Coleman authorizes the *Independent Republican* to say that he is not a candidate for renomination. Mr. Coleman has said for a year past that he would not be a candidate under any circumstances and he has in no way changed his mind.

In the Republican primaries in New York city, last evening, the Platt forces won what seems to be an overwhelming victory. They carried many districts which were supposed to be strongholds of the Union League-Brookfield combination, and it is certain that the New York delegation to the State Convention will contain a great many more adherents of Platt than either the "Easy Boss" or his friends have presumed to claim.

Senator Roger Q. Mills, of Texas, who has been regarded as a champion of free silver coinage, has written a letter to the Democratic State Committee of Texas in which he comes out squarely and vigorously against the free coinage of silver by the United States at a ratio of 16 to 1, independently of the other commercial nations of the world. He says that he is convinced that free coinage would work hardship and ruin to the farming and laboring classes.

The Republican convention in the Twenty-seventh Senatorial District is deadlocked over the nomination of a candidate for Senator. Each of the counties in the district, Fulton-Hamilton, Montgomery and Schoharie, has seven votes in the convention, and on each of the 300 ballots each county voted for its own candidate. There were no signs of yielding when the convention adjourned until today, and the feeling is so bitter that it is possible, no matter who is nominated, that the district will be thrown into the hands of the Democrats.

Representatives of the Democracy of Orange and Rockland counties, named by State Committeeman Clark, met at the Palatine, in Newburgh, yesterday afternoon, to agree upon a basis of representation in the Senatorial convention, and to fix the time and place of holding such convention. After full discussion it was decided that the convention should consist of sixteen delegates from Rockland and thirty-two from Orange, the same proportion that prevailed when Dutchess county was part of this Senatorial district and the basis of representation was ten delegates from each Assembly district. Each town and ward in Orange county will send one delegate with the exception of Deerpark, which, on account of its large Democratic vote

will send three. It was voted to hold the convention in this city Wednesday, Oct. 2, at 1 o'clock p.m.

The General Term of the Supreme Court, at Saratoga, yesterday, affirmed the order of the lower court requiring New York county to pay to the State \$716,515.72, its share of the tax levied in 1893 for State care of the insane. The judgment of the lower court is modified, however, so as to exempt New York county from the payment of part of the interest due. By agreement between the State Comptroller and the city authorities the judgment of the General Term will be accepted as final and the case will not be taken to the Court of Appeals. The decision carries with it an obligation for New York county to pay its share of the State care tax of 1894, and is likely to bring about the transfer of New York's insane to the State at the earliest possible moment.

ENGLISH RAILROAD RECORDS BEATEN

New York Central's Flyer Falls to Make 143 Miles in 100 Minutes, but Beats the English Time Records.

BY UNITED PRESS.

ALBANY, Sept. 11.—A special train, which left the Grand Central depot, New York, at 5:40 30, this morning, with the intention of covering the 143 miles between New York and this city in a hundred minutes, failed to do so.

The train arrived here at 7:53.35, making the time for the run 133 minutes and 25 seconds. The trial was made as a test of the capacity of a new engine, Vice-President Webb, of the Central, and a number of guests were on board.

BUFFALO, Sept. 11.—The New York Central's fast train continued its run to Buffalo, arriving at 12:38. It consumed 407 minutes in the run from New York, an average of 64 1/3 miles an hour. The English record was 63 1/2 miles per hour.

Two forged checks came to light in this city, to-day. They are for small amounts, one being for \$12.85, the other for \$12. In each case the drawers purport to be Vanamee, Watts & Vail. The smaller check is drawn to order of Walter E. Bazz, while the larger one is made to favor R. V. Thomas Gordon.

Each of the checks is on the Merchants and Manufacturers' Bank, and they found their way to the First National Bank in the usual routine of business, the \$12.85 check being deposited by John A. Wallace, the \$12 check having been cashed for Mr. Charles Higham, of the Commercial Hotel.

Upon presentation of the checks to the Merchants' and Manufacturers' by the First National, payment was refused on the ground that the drawers had no account with that institution.

When shown the checks, Mr. Thomas Watts, of Vanamee, Watts & Vail, at once pronounced them forgeries. Neither bank sustains loss by the forgeries.

Mr. John A. Wallace says that day before yesterday, a middle aged man came to his coal yard and asked the price of coal. He said he wanted a ton delivered to Rev. Dr. Crawford's, on Highland avenue. Inquiry as to where Dr. Crawford lived developed the fact that the coal was to be sent to Dr. Gordon's and the man said he had got things mixed because Dr. Crawford was a brother-in-law of Dr. Gordon.

Shortly afterwards the man returned and said the bill for the coal was to be made to Dr. Gordon and not to Dr. Crawford, and tendered the check which Mr. Wallace accepted, giving him the balance in cash.

Mr. Wallace met the forger on the street, to-day, before he learned that the check was worthless.

Mr. Higham took his check from a man who became a guest at the hotel, about two weeks ago, and who registered as W. E. Bragg, representing himself a salesman for Pillsbury flour. He has been drinking heavily since he has been in town. Search is now being made for him, as it is not believed he has left town.

THIEVES AT MIDWAY PARK.

The Slot Machines Carried Across the River. Broken Open and Their Contents Stolen.

Thieves made a raid upon the nickel and penny-in-the-slot machines at Midway Park, last night. Five machines in all were taken from the pavilion and carried across the bridge at the Park to the meadows, where they were broken into and the contents stolen.

The amount of money taken is small as the machines were all emptied on Saturday last, but the machines themselves are ruined.

Mr. Cuno Musbach, proprietor of the Midway Park restaurant, while he does not own the machines, is responsible to the owners for their care and the receipts. There were two chewing gum, one fortune telling, one weighing and one chocolate machine in the lot.

There is no clue to the thieves.

A House Burned Near Bloomingburgh.

The house on the Joseph Rgers place, a mile and a half north of Bloomingburgh, now owned by a man named Lynch, of New York, and occupied by William B. Turnbull, also of New York, was destroyed by fire, Monday night. The fire broke out in the attic about 9 o'clock and had made such progress when discovered that it was impossible to extinguish it. We learn that there was an insurance of \$1,500 on the house and \$600 on its contents.

Burglary in Port Jervis.

Kirk's restaurant, in Port Jervis, was entered by burglars, early Tuesday morning, and robbed of \$1 in Canadian coins, \$5 in old coins and twenty-six cents in change. Entrance was effected through a rear window. The police have no clue to the thieves.

Postmaster Woods' Unique Job.

"I've just thought of something," said Superintendent of the Poor W. H. Wood to a reporter, this morning.

"What is it?" asked the reporter.

"The less I do the better it suits my employers." And it is true.

Bachelors' Hop at Midway.

The members of the Bachelors Social Club will give a private hop at Midway Park, Friday night. Only those holding invitations will be admitted to the dancing floor.

A Surprise Party.

About thirty of the young friends of Miss Emma Kirschner gave her a pleasant surprise at her home on Mill street, last evening. The evening was spent in the usual social amusements.

INCIDENTS AND HAPPENINGS IN GOSHEN.

The Goshen Burglars in Jail. The Cake Sale—To-morrow's Ball Game—History of the Goshen Fire Department—The Worst Snow Yet—Bell of Bell Lost.

From Our Regular Correspondent.

The secret of several burglaries which have been committed during the past two months at the store of Reeva & Kelseys was solved, Friday afternoon last, when John Rose, colored, confessed that he was the man whom Officer Van Leuvan shot at about two weeks ago.

He also implicated Theodore Halsey as assisting him in the burglaries. A hearing was given them before Police Justice Sweezy, yesterday afternoon, and Halsey was held for burglary in the third degree and his bail was fixed at \$500. Rose was held for attempted burglary and his bail was fixed at \$100. They could not give bonds and were committed to the Goshen jail to await the action of the Grand Jury.

The cake sale by the Ladies' Aid Society of the Presbyterian Church, to-morrow, between the hours of 4 and 6 p.m., will be held at the parsonage, instead of the chapel as stated in this column, last night.

The Goshen base ball club, accompanied by a delegation of "rooters," will go to Middletown, to-morrow, and try to lower the colors of the base ball club which defeated them in this village, last Saturday.

Whether they win or not the people who go to see this game will get their money's worth as the teams are evenly matched and it should be a well contested game.

Mr. F. G. Gardner, of the New York Recorder, has secured permission from the Board of Trustees of this village to write a history of the Goshen Fire Department. It is expected the book will be completed some time in October. He will also write a history of the Middletown Fire Department. After the expense of printing the book is met any surplus which may exist will be given to the relief fund of the Goshen and Middletown departments.

The grocery store of Mr. Theo. Smith is being improved by a fresh coat of paint.

The minstrel show given by "Doc" Robinson, at Music Hall, last night, attracted a \$15 house. The show was one of the worst that has ever visited Goshen, and that is saying a good deal.

A roll of bills wrapped in a piece of paper was lost between Henry Seely's grocery store and Miss C. A. Whitney's on West Main street, yesterday. There were \$29 in bills. The finder will receive a suitable reward by leaving the same at the Goshen post office.

IN ANCIENT GOSHEN.

The First Meeting of the Vocal Society After Its Vacation—Some Personal Notes—The Home of Bacteria—A Valuable Shutter Fastening.

From a Special Correspondent

The Vocal Society held its first meeting, after a vacation of over two months, last Friday evening. At this meeting it was resolved, first, that the dues of the Society for the year commencing Oct. 1st, 1895, be \$3, provided they and all arrearages be paid before Jan. 1st, 1895. Second, that active members living out of town who are obliged to use the cars to come to rehearsals be excused from the payment of dues, but be required to pay for new music used at the rehearsals and concerts. Third, that the rehearsals of the Society shall begin in the future promptly at 7:45 p.m.

Mr. Charles P. Berdell and family have gone to Summit, N.J., for two weeks.

Mrs. C. V. D. Gott, Miss Alice Sayer and Miss Bertha Merriam started, this morning, for Atlantic City.

Mr. Edward Foote and family, who have been enjoying a vacation in Sullivan county, have returned to their home in this village.

The bacilli and bacteria are having things all their own way with the reservoir water in this village, and consequently all who are fortunate enough to possess wells and cisterns have decidedly the better of their neighbors who are entirely dependent upon the lake water. In spite of the long drought of last summer, a water famine was not so imminent then as it seems to be at present. No one now will be tempted to make a too lavish use of the precious fluid, however. It is its own best protector.

It is a pity that a few of the women of whom we read in almost every newspaper issue, those who are beaten by drunken husbands or set upon red hot stoves by the partners of their joys and sorrows, or deserted by those who have sworn to love and cherish them, did not have fastenings to their shutters similar to the ones that protected those of a woman who found a burglar in her home recently. Upon spying him, she seized his bag of booty and ordered him to leave. He concluded that it was a case of

His not to make reply.

His not to reason why,

but, the window being nearer than the door, to leave by that. His trouble had just begun, for the fastening of the shutter caught in his clothing and he hung suspended like Mahomet's much quoted coffin. The

A WOMAN HISTORIAN.
Mrs. Victor Has Written Histories of Five
Western States.

Oregon recognizes the literary genius and ability of women in the selection of Mrs. Frances Fuller Victor as the state's historian. At its last session the legislature passed an act authorizing the secretary of state to appoint some one to write the "History of the Early Indian Wars of Oregon," and Mrs. Victor was named for this work. The literary tastes of women do not ordinarily run in the line of historical compilation and writing, but Mrs. Victor seems to possess a peculiar gift in this direction.

Mrs. Victor has accomplished much in literature and has written a number of important historical works. Among her best known books are "Atlantis Arisen," which deals with the physical features of the northwestern country, interspersed with anecdotes, and "The River of the West," containing early annals of the region "where rolls the Oregon" and an account of the operations of the fur companies. Her labors in the Bancroft library covered a period of 11 years, from 1878 to 1889, during which time she produced exclusively histories of Colorado, Nevada, Washington, Wyoming and Oregon. She compiled all the political history in volumes 6 and 7 of Bancroft's California series and also the railroad history. She has likewise written valuable and practical work on "Transportation and Mining."

Mrs. Victor is a native of New York state, but went to Ohio when young. She began her literary career as a contributor of prose and verse to various eastern periodicals. In 1865 she married Mr. Victor, a naval officer, and with him went to the Pacific coast, where she became identified with California journalism. She contributed to San Francisco and Chicago publications stories and sketches, which she gave a western coloring. She now lives in Oregon.

New York's River Tunnel.
There is a big hole under North river. Some day it will be a tunnel connecting this city and Hoboken. No work has been done for four years, but the owners of the hole are now trying to raise money in London to complete their tunnel before a bridge can be built over North river. Only 1,250 feet remain to connect the two holes bored from either shore, each of which is now full of water. This water has simply soaked through since work was abandoned on the death of the principal backer. So far \$3,000,000 has been poured into the hole, and only \$500,000 will be required to complete it.—New York Letter.Make Clothing For Dogs.
It is well known that there are dentists in London and in Paris whose specialty it is to fit lapdogs with a set of false teeth. It now appears from a Parisian monthly magazine of fashions that there are tailors and fashion plates for dogs. The list of garments includes mackintoshes, Jaeger vests, comforters and respirators, side pockets with a lace handkerchief inside, fur collars, small silk umbrellas, which dogs are taught to carry over the head.—Chicago Tribune.Everything Goes.

DAVID R. MILLER'S STREET MAKING

The Old Extension of Highland Avenue
Now a Cow Pasture—How He "Bested"
the City Authorities.

David R. Miller has fenced in the old extension of Highland avenue and is now pasturing his cows on it.

Mr. Miller is very chipper over the way in which he has "bested" the city authorities in the matter of this street. Though he promised to fix the street immediately "after haying" he bided his time, and when the Mayor and Acting Mayor were both out of town he set his men at work on the new road, which the Council had officially disapproved of.

Mr. Miller said this morning: "Possession is a good thing in law, and when the Mayor was 'in the woods' and the Acting Mayor was fishing, I thought it a good time to get in my fine work. You see, there was no danger then of injunctions or that sort of thing, so I put on my gang. The road as I've fixed it now is, I think, a great improvement, and besides it helps my building lots. They plot out to a great deal better advantage than they did with the street on the other side of the frog pond. Even an alderman can see that I'm making a fine boulevard out of the Sands station road."

Mr. Miller seems to have the best of the matter as it now stands, but it's among the easy possibilities that the Council may not see fit to give him a deed to the old roadway, and in that event his lots will cut up to very poor advantage.

Sullivan County Supreme Court.

Although there were 113 cases on the calendar of the circuit of the Supreme Court, which opened in Monticello, Monday afternoon, but nineteen cases were announced as ready for trial. There are on the calendar twenty-three suits against John King and J. G. McCullough, receivers of the Erie railroad, most of them for the recovery of personal damages.

Population of the State Hospital.

According to the *Conglomerate*, there were, Tuesday, 1,138 patients in the State Homeopathic Hospital for the Insane, in this city, of whom 561 were males and 577 females. During the week eight patients were admitted and three discharged.

Events at the Casino.

Don't forget "Eight Bells," at the Casino Saturday night.

The Howard Stock Co. will commence a week's engagement at popular price, at the Casino, next Monday evening.

What else is there in eating when food does you no good—in fact, when it does you more harm than good, for such is the case if it is not digested.

If you have a loathing for food there is no use of forcing it down, for it will not be digested. You must restore the digestive organs to their natural strength and cause the food to be digested when an appetite will come and with it a relish for food.

The tired, languid feeling will give place to vigor and energy, then you will put flesh on your bones and become strong. The Shaker Digestive Cordial as made by the Mount Lebanon Shakers contains food already digested and is a digester of food as well. Its action is prompt and its effects permanent.

PROTECT BABY

Dangers Peculiar to Early Fall Weather.

Extreme Liability to Bad Intestinal Trouble.

Lactated Food Should Be Used in September.

Child's Digestion Left Weak by Hot Summer.

Peril of Sudden Change in Fall to Ordinary Diet.

Mothers should remember that the baby has a hard fight through all these hot days and nights of summer. Even if your baby has so far resisted the prevalent fatal disorders, cholera infantum and diarrhoea, its strength and power of digestion has certainly been much weakened. It will take but little to overturn its stomach and precipitate an attack of the dreaded cholera infantum.

This is the history of so many fatalities among infants in September.

Prudent mothers will take the advice of physicians and continue to make lactated food baby's regular diet. The early fall weather is as perilous as the worst month of summer. There are extreme changes in temperature; the return home from the seashore or country brings new conditions in baby's surroundings that it is not easily accustomed to.

Physicians know that the food of children must be most carefully watched while baby is getting used to fall weather. There is security from diarrhoea and from faulty nutrition in lactated food. Babies and young children always develop a strong appetite when fed on this best of all infant foods. Lactated food encourages under-fed babies to take a proper amount of nourishment. The difficulty and the prime importance of arousing such a healthy desire for food has not for an instant been left out of sight in the preparation of lactated food.

Lactated food solves the problem of keeping very young children well-nourished at all seasons. Babies often become so weakened by faulty nutrition that they grow listless, hardly hold up their heads and take little notice of things about them. Time and time again has lactated food been given to these little piping infants to the immense gratification of parents. It takes but a short time for the splendid food to brighten the dull eyes and to make a romping, noisy, plump baby that was but a little while before a thin, pitiable, white-faced child and a souc'e of extreme anxiety to its parents.

Thousands of homes are to-day freed from the dread of cholera infantum and such wasting diseases of childhood by lactated food. Countless mothers now sleep soundly, knowing their precious charges are safe. Lactated food fully meets every need of growing children. It is a perfect substitute for mother's milk—sugar of milk is the basis of both. Children weaned or deprived of breast milk grow steadily and keep strong and well on an exclusive diet of lactated food. It brings them safely through the teething period and makes them develop strong bones and a robust constitution. No mother with a sickly child should delay putting it on a diet of lactated food. It means a vigorous child in the place of a weakling.

The following sub-committees were appointed:

Programme, Printing and Speakers—A. B. Wheeler, D. H. Keeler, Jr., C. M. Winchester, John Ogden.

Music—W. V. Luckey.

Badge—D. H. Keeler, Jr.

The sympathy, co-operation and personal presence of comrades throughout the county will make this first re-union a success, and it is to be hoped there will be a large gathering in this city on the day selected.

The committee will meet at the Post room, Friday night.

Base Ball Notes.

A series of three games between the Goshen and Port Jervis teams has been arranged for, the first to be played at Goshen, Saturday, the second at Port Jervis, Wednesday of next week. The place of the third game has not been fixed.

The Port Jervis team is arranging for a game with the "Asylums" of Middletown to be played in Port Jervis, next week.—Gazette.

Relief in Six Hours.

Rebecca Wilkinson, of Brownsville, Ind., says: "I have been in a distressed condition for three years from nervousness, weakness of the stomach, dyspepsia and indigestion until my health was gone. I had been doctoring constantly with relief. I bought one bottle of South American Nervine, which did me more good than any \$50 worth of doctoring I ever did in my life. I would advise every weakly person to use this valuable and lovely medicine; a few bottles of it have cured me completely. I consider it the grandest medicine in the world." Warrented the most wonderful stomach and nerve cure ever known. Sold by J. E. Mills, druggist, Middletown N. Y.

ALMOST A COLLISION.

A Freight Train Disregards the Block Signal and Nearly Crashes Into the Crawford Train.

Yesterday when the Crawford train backed into the depot at James street an east bound freight train rounded the curve above the West Main street crossing at a speed of forty miles an hour.

Engineer Mintram seeing his danger gave three blasts of the whistle, reversed his engine and threw over the lever and started down the track, and just in time to prevent a head to head collision.

The engineer of the freight did all he could to bring his train to a standstill.

It was a very narrow escape for trainmen and passengers.

The block was again the freight train and the engineer will be made responsible for running by it.

"THE POVERTIE PARTIE"

The Novel Entertainment to Be Given at the First Presbyterian Church, Friday Evening The Quaint Invitations.

The "Poverty Partie" to be given Friday evening, at the First Presbyterian Church, promises rare fun as well as more sober enjoyments. The patronesses are Mrs. S. H. Talcott, Mrs. Edward Catfield, Mrs. L. T. Judson, Mrs. George Marsden, Mrs. D. H. Webster and Miss Flunger. These ladies, a host in themselves, have spared no pains to make the evening a pleasant one. Miss Julia Wickham has charge of an informal musical and literary programme. Supper will be served from half past five. A copy of the quaint invitation is given below:
